Standard- 10 (Viswabharathi E.M High School- Gudivada)	June 2017 – March 2018

Projects

Portfolio Website (HTML, CSS, JavaScript)

Developed a personal portfolio website from scratch to showcase my skills, projects, and professional experience. The website features a clean, responsive design, ensuring optimal viewing across various devices, and includes interactive elements to enhance user engagement.

- Role: Sole Designer and Developer
- Technologies: HTML, CSS, JavaScript, Bootstrap
- Challenges:
 - Ensured responsive design across mobile, tablet, and desktop devices.
 - Implemented custom animations and transitions for a smooth user experience.
 - Optimized the website for faster load times by minifying CSS and JavaScript files and using responsive images.
- Results:
 - Successfully created a platform that increased visibility of my work, leading to 50% more inquiries from potential employers and collaborators.
 - Achieved an average load time of under 2 seconds on all tested devices.
 - Improved user interaction with the portfolio, resulting in a 40% increase in session duration.

QTrip Static Website (HTML, CSS, Bootstrap)

Designed and developed a static demo travel website named QTrip to demonstrate a seamless and responsive user experience for booking trips. The website showcases a clean and modern design, featuring key elements like destination listings, booking forms, and responsive navigation.

- Role: Sole Designer and Developer
- Technologies: HTML, CSS, Bootstrap
- Challenges:
 - Created a fully responsive layout that adapts to various screen sizes, ensuring usability on mobile, tablet, and desktop devices.

- Implemented Bootstrap components for a streamlined and consistent design across all pages.
- Optimized CSS for better performance, reducing load times and enhancing user experience.
- Results:
 - Successfully delivered a visually appealing and functional travel website demo, which serves as a strong portfolio piece to demonstrate front-end development skills.
 - Achieved responsive design that functions smoothly across different devices and screen sizes.
 - Enhanced page loading speed, ensuring quick access to travel information for users.
